

THE 3D O MATIC

Tired of watching your favorite 3D movie only to find that the cheap 3D glasses they provide are really uncomfortable

Then why not try the "3D O matic"™

This is a device that will clip on to all cinema seats (except showcase).

Using the supplied "eye extract o matic"™ simply remove the eye ball from the socket (see fig 1).

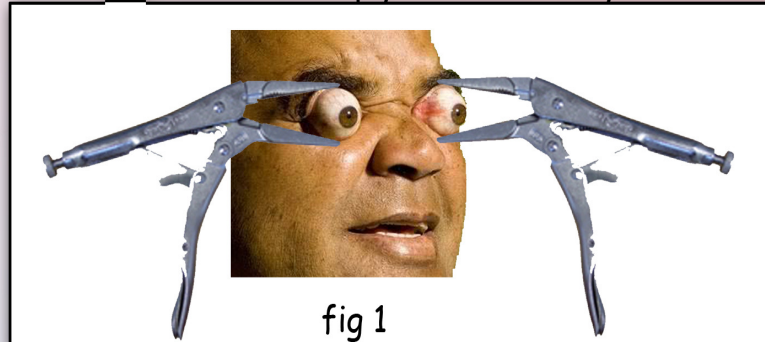

fig 1

(Don't worry the eye can stretch a full 13 metres before being torn painfully from the optical nerve see fig 2)

(Data supplied from the Daily Mail Scientific reporter.)

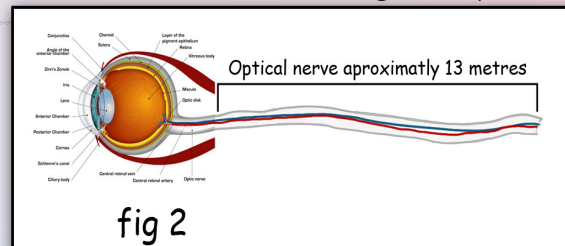

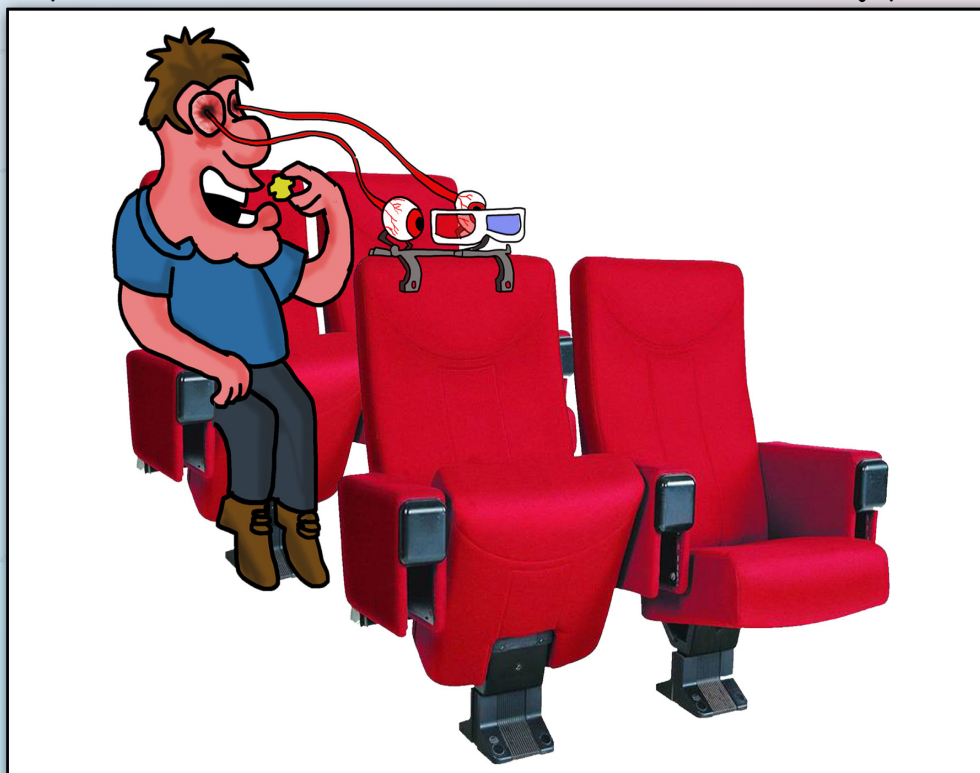

fig 2

Insert the eyeballs into the 3D 'O' matic™. Then sit back and enjoy the movie.

Available from all good stockists. Only £123.95
